SUMMARY

iOS Developer with 3 years of experience - 1 year at the Apple Developer Academy and 2 years in a professional setting. During that time, I've built 6 apps as part of the academy and developed 6 more while working in the industry. I'm comfortable working with Swift, Xcode, Core Data, networking, and Git. I'm proactive, quick to learn, and always looking for opportunities to grow and improve as a developer, especially as part of a collaborative and driven team.

WORK EXPERIENCE

PT Visi Prima Nusantara

North Jakarta, Indonesia

iOS Developer

July 2023 - now

- Developed 6 production iOS/iPadOS applications (*Portal Sekolah Student - Parent - Staff*, *Portal Kerja HRMS*, and *Portal Kampus - LMS*) using Swift and UIKit.
- Fixed bugs, maintained existing features, and improved app performance for stability and speed.
- Delivered new features on schedule through collaboration with Project Managers, UI Designers, and Backend Engineers in Agile sprints.
- Maintained code quality and version control using Git.

Apple Developer Academy @Binus | Indonesia

Tangerang, Indonesia

iOS Developer Apprenticeship

March 2022 - December 2022

- Applied iOS development technologies, including Swift, SwiftUI, MVVM Architecture, Core Data, and HealthKit.
- Learned and applied Apple's Human Interface Guidelines in real-world app projects.
- Gained hands-on experience with Agile methodologies, collaborating with Project Managers, UI/UX Designers, and Developers.
- Developed 6 apps with 1 successfully to the App Store.
- **Key Project – FitFix:** Co-developed a health app supporting users' weight loss goals, from research and ideation to development and release, within 2 months.

EDUCATION

Binus University

Bandung, Indonesia

Bachelor of Computer Science

September 2019 - August 2023

- GPA: 3.63
- Active in university organizations:
 - Keluarga Mahasiswa Katolik (KMK)
 - Bina Nusantara Computer Club (BNCC)

Apple Developer Academy @Binus | Indonesia

Tangerang, Indonesia

Apprenticeship

March 2022 - December 2022

- Learning mobile app development for the iOS platform.
- Brainstorming ideas and conducting research and development with the team consisting of 6 members including iOS Developers, a Project Manager, and UI/UX Designers.
- Learning about Apple's Design best practices and project management.

SKILLS & INTERESTS

Hard Skills: Swift | SwiftUI | UIKit | MVVM | OOP | HealthKit | CoreData | GitHub | Agile | Networking (URLSession, async/await) | RESTful API Integration

Technical Tools: Notion | ClickUp | Jira | Xcode | ChatGPT (for code explanation, debugging, and productivity)

Soft Skills: Leadership | Initiative | Collaboration | Teamwork | Communication

Interests: Movie, Anime, Manga, Japanese Stuff, Watching YouTube

Language: English | Indonesia

CERTIFICATIONS

iOS & Swift - The Complete App Development Bootcamp

Udemy

by Dr. Angela Yu

January 2023
